UK**

7 This equipment and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

8 CSA Group Netherlands B.V., notified body number 2813 in accordance with Articles 17 and 21 of Directive 2014/34/EU of the European Parliament and of the Council, dated 26 February 2014, certifies that this equipment has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in the confidential reports listed in Section 14.2.

9 Compliance with the Essential Health and Safety Requirements, with the exception of those listed in the schedule to this certificate, has been assured by compliance with the following documents:

EN IEC 60079-0:2018 EN 60079-11:2012

10 If the sign 'X' is placed after the certificate number, it indicates that the equipment is subject to Specific Conditions of Use identified in the schedule to this certificate.

11 This EU-Type Examination Certificate relates only to the design and construction of the specified equipment. If applicable, further requirements of this Directive apply to the manufacture and supply of this equipment.

12 The marking of the equipment shall include the following:

II 1G
Ex ia IIC T4 Ga
Ta = -10°C to +50°C

Signed: Michelle Halliwell

13 DESCRIPTION OF EQUIPMENT

SW-HHP-ATEX is a handheld piece of equipment used to control the Loadcell RLP - ATEX. The equipment is powered from two series connected Energiser Ultimate Lithium cells. The equipment consists of a radio module PCB and an additional PCB consisting of the safety critical components which are fully encapsulated. It also contains the antenna PCB which is partially encapsulated. The enclosure is made of ABS material which is placed in a rubber casing made of anti-electrostatic material. It consists of an LCD and keypad which is covered by a keypad membrane. All of the exposed parts of the upper casing are coated with anti-electrostatic material. There are no external connections from the equipment.

Variation 1 - This variation introduced the following changes:

- i. New radio board introduced which has changed some drawings as a result.
- ii. New LCD module introduced which has changed some drawings as a result.
- iii. New keypad introduced which has changed some drawings as a result.
- iv. The drawings which represent the old design have been reproduced in new drawings.
- v. Changes in the marking label to show the new Crosby Straightpoint logo.
- vi. Following appropriate assessment to demonstrate compliance with the latest technical knowledge, EN 60079-0:2012/A11:2013 was replaced by EN IEC 60079-0:2018.

Variation 2 - This variation introduced the following changes:

- i. Typographical errors corrected on the drawings.
- ii. ATEX certificate number of the L91 batteries removed from the drawings.
- iii. Non-hazardous area bill of material amendments and corrections.
- iv. Revised not hazardous area marking.
- v. Remove the listing of IEC 60079-26.

Variation 3 - This variation introduced the following change:

- i. Assessment of the uncertified version of the ENERGIZER L91

Variation 4 - This variation introduced the following changes:

- i. To update the label drawings SU3474, SU6297 & SU6030 to reflect the UKCA marking.
- ii. To update the company name and address on the certificate:

14.2 Associated Reports and Certificate History

Issue	Date	Report number	Comment
0	22 December 2015	R70043491B	The release of the prime certificate.
1	28 April 2016	70061934A	This Issue covers the following change: EU Type Examination Certificate in accordance with 94/9/EC updated in accordance with Directive 2014/34/EU. <i>(In accordance with Article 41 of Directive 2014/34/EU, EU Type Examination Certificates referring to 94/9/EC that were in existence prior to the date of application of 2014/34/EU (20 April 2016) may be referenced as if they were issued in accordance with Directive 2014/34/EU. Variations to such EU Type Examination Certificates may continue to bear the original certificate number issued prior to 20 April 2016.)</i>
2	15 October 2019	1349	Transfer of certificate Sira 15ATEX2196X from Sira Certification Service to CSA Group Netherlands B.V.
3	20 April 2020	R80030551C	The introduction of Variation 1.
4	09 December 2020	R80060438B	The introduction of Variation 2.
5	07 October 2022	R80115671B	The introduction of Variation 3.
6	24 January 2023	R80150808A	The introduction of Variation 4.

15 SPECIFIC CONDITIONS OF USE (denoted by X after the certificate number)

- 15.1 The antistatic coating on the exposed parts of the upper casing can be adversely affected by contact with solvents. Suitable precaution shall be taken to avoid such instances and the labels shall be inspected periodically for any damage.
- 15.2 Only Energizer Ultimate Lithium Cells Type L91 AA, certificate number Baseefa14ATEX0107U shall be fitted.

16 ESSENTIAL HEALTH AND SAFETY REQUIREMENTS OF ANNEX II (EHSRs)

The relevant EHSRs that are not addressed by the standards listed in this certificate have been identified and individually assessed in the reports listed in Section 14.2.

17 CONDITIONS OF MANUFACTURE

- 17.1 The use of this certificate is subject to the Regulations Applicable to Holders of CSA Group Netherlands B.V. certificates.
- 17.2 Holders of EU-Type Examination Certificates are required to comply with the conformity to type requirements defined in Article 13 of Directive 2014/34/EU.
- 17.3 Only Energizer Ultimate Lithium Cells Type L91 AA, certificate number Baseefa14ATEX0107U shall be fitted.
- 17.4 It is the responsibility of the manufacturer to continually monitor the status of the certification associated with this device. The manufacturer shall inform CSA Sira of any modifications to the device that may impinge upon the explosion safety design of the equipment.
